

WESTINGHOUSE ELECTRIC COMPANY CELEBRATES ITS FOUNDER

George Westinghouse and 125 years of making lives better.

WESTINGHOUSE ELECTRIC COMPANY LLC

George Westinghouse, a brilliant man with a head full of ideas, embodies the words inventor and entrepreneur. He founded Westinghouse Electric Company in 1886 and along with Nikola Tesla was responsible for the development and introduction of alternating current that electrified the world. He founded dozens of companies, held over 100 patents, and worked tirelessly to improve technology that enriched people's lives.

Acclaimed in his time as the "greatest living engineer," George Westinghouse was accorded numerous honors in the U.S. and throughout the world. According to famed inventor Nikola Tesla he was one of the world's true noblemen, of whom America may well be proud and to whom humanity owes an immense debt of gratitude.

Today the company he created continues to make our lives better through its unparalleled leadership position in commercial nuclear energy. Westinghouse and its more than 15,000 global employees are proud of the work we are doing to develop advanced carbon-free nuclear power options to meet the world's energy needs. Westinghouse technology will help provide future generations with safe, clean and reliable electricity.
